OUR VALUES

01 Food safety first.
No ingredient enters our kitchen unless we know where it came from.

02 Hygiene without shortcuts.
The kitchen is sanitized every day, and staff wear gloves, masks and hairnets.

03 Quality over quantity.
We cook only what we can cook well, and never cut corners to cook more.

OUR MISSION

To serve corporate teams in Bangladesh safe, hygienic, home-style meals made from ingredients we can trace, and to choose quality over quantity in every portion we cook.

CORPORATE CATERING · DHAKA

"We don't just deliver food — we deliver trust."

ABOUT TOBLA KITCHEN

Tobla Kitchen is a Bangladeshi catering company that cooks lunch and dinner for corporate teams, built on one idea: office food should be as safe as food cooked at home. We control what goes into every meal, from the farm the chicken comes from to the container it arrives in. And we eat what we prepare: our own team eats the same food we serve, every day.

HOW WE PREPARE AND DELIVER

- **Reusable, BPA-free, food-safe plastic containers.** No polythene, foam boxes or newspaper wrapping.
- **Experienced hands.** Our kitchen and service staff have decades of experience in the catering industry.
- **Hygiene every day.** The kitchen is sanitized daily, and staff wear gloves, masks and hairnets.
- **Modern equipment.** Our kitchen equipment is chosen for food safety and easy cleaning.
- **Clean inputs.** Fresh, halal ingredients, best-quality packaged soybean oil and filtered water go into every dish.
- **Cooked fresh, never frozen or reused.** Lunch is cooked fresh each day for that day's headcount, and cooked food is never carried over to the next day.
- **Safe delivery.** Meals travel in clean transport and arrive on time, every day.

WHAT SETS OUR FOOD APART

Every ingredient has a known source.

1

Free-range chicken only.

Sourced from Organik Chicken, whose birds are raised with outdoor access and given no antibiotics, hormones or growth promoters, on feed milled in-house without animal by-products.

2

Omega-3 free-range eggs.

From the same farm, from hens that range outdoors and are raised on the same antibiotic-free, hormone-free feed.

3

Beef from trusted agro partners.

Bought from known partners, not from open wet markets.

4

Fish and vegetables bought daily.

Bought each day against confirmed meal numbers, so nothing sits in storage.

5

Spices processed in-house.

We buy raw whole spices from trusted vendors and grind and blend them in our own kitchen, so no ready-made powders.
